DOOR SETS

SPRING 2014

## CASE STUDIES:

### Mental Health & Wellbeing Centre, Princess Elizabeth Hospital, Guernsey Project Value: £17m

Construction of a brand new Mental Health & Wellbeing Centre in Guernsey aimed at consolidating all mental health services on the Island.

European Doorsets have recently secured the package to supply nearly 300nr doorsets in total comprising of laminate faced, 6 panelled paint-grade and acrovyn PVC post-formed doorsets. The acrovyn PVC post-formed doors are to be supplied with acrovyn PVC wrapped split frames complete with matching integral architraves. Glazed stand alone timber screens, privacy vision panels, Between Glass Blind integral units and ironmongery will also be supplied as a complete package. The project is due for completion early 2015.

### Arnold Lodge Medium Secure Unit, Leicester Project Value: £8m

Arnold Lodge is a 92 bed medium secure unit for adults requiring psychiatric care. The package for this project includes the supply of over 120nr American White Ash doorsets and steel-faced seclusion doorsets.

Privacy vision panels with steel facia bead patient side timber staff side and security pill hatches fitted to bedroom doors will also be supplied as a complete doorset package.

The project is due to be completed mid 2014.

### Rosie Maternity Hospital, Phases 1 & 2 Addenbrookes Hospital, Cambridge Project Value: £30m

Expansion to existing Maternity Hospital involving the construction of the Rosie Birth Centre plus refurbishment works to the Daphne Ward and Early Pregnancy Unit.

European Doorsets supplied over 350nr doorsets across the project in total which comprised of paint-grade, laminate faced and Oak veneered doors with primed frames. Screens, glass, hinges and architraves were also supplied along with privacy vision panels as a complete package.

The project was completed in November 2013.

### Clifton Park Hospital, York Clinical & Administrative Accommodation Unit Project Value: £10m

Construction of a new 26 bed Clinical & Administrative Women's Low Secure Unit situated next to the existing Clifton Park Hospital.

Almost 200nr crown-cut American White Oak veneer faced doors with oak edges and primed frames were supplied in total. Due to the nature of the project, there was also a requirement for anti-barricade hinges, anti-ligature ironmongery and anti-ligature privacy vision panels which European Doorsets also supplied as a complete package.

### Royal Cornwall Hospital, Truro, Tower Block

As part of the hospitals' review for Fire Strategy, internal fire doorsets contained within the Tower Block Building were recently replaced.

Over 80nr laminate faced doors with Steamed Beech edges & beads and primed frames were supplied along with paint-grade external doorsets.

Due to the nature of the project, door edge protection was also supplied along with hinges, fire discs, architraves, overpanels and glass.
