

CASE STUDIES:

Royal Liverpool University Hospital

Project Value: £335m

European Doorsets are delighted to have been awarded the complete internal doorsets, screens and ironmongery package to the brand new 12-storey 646-bed hospital in Liverpool.

**Doorsets:**

- Over 4,300 doorsets/6,500 door leaves will be supplied over the 18 month programme
- Laminate faced doorsets in a range of colours for the corridors and communal areas
- Paint-grade doorsets for on-site painting to the switchrooms and risers
- Large number of post-formed acrovyn faced doors hung in steel frames to labs & clean room areas, with PVC kick-plates
- Number of these to be lead-lined for x-ray shielding
- Between-glass-blinds to vision panels to all bedroom and assessment areas
- Anti-finger trap protection to WC's and corridor areas
- Door edge protection: PVC to public areas and steel to FM areas
- Glazed timber screens and complete supply of all ironmongery

Mental Health & Wellbeing Centre, Princess Elizabeth Hospital, Guernsey

Project Value: £17m

Construction of a brand new Mental Health & Wellbeing Centre in Guernsey aimed at consolidating all mental health services on the Island.

**Doorsets:**

- Supply of almost 300nr doorsets in total
- Mixture of laminate faced, 6 panelled paint-grade and acrovyn PVC post-formed doorsets. The acrovyn PVC post-formed doors were supplied complete with acrovyn PVC wrapped split frames and matching integral architraves
- Glazed stand alone timber screens, privacy vision panels and Between-Glass-Blind integral units
- Supply of all ironmongery including anti-ligature hardware items as a complete package

Southmead Hospital, Pathology Building Phase 2

Project Value: £12m

Second part of a £25m investment programme involving the construction of a brand new 4-storey building. Phase 2 has been situated next to Phase 1 with a link bridge to connect the two.

**Doorsets:**

- Over 200nr doorsets were supplied
- Laminate faced doors supplied pre-hung in Oak frames
- Number of 90 minute fire-rated doorsets
- Number of acrovyn PVC post-formed doorsets to laboratory areas
- Fanlight screens supplied complete with glass

Pathology Hub, Basildon

Project Value: £3m

Conversion and refurbishment of existing building into a brand new state-of-the-art pathology hub for Basildon & Thurrock and Southend University Hospital NHS Trusts.

The new facility will enable pathology services for the two hospitals to remain local, ensuring a quick and efficient process for patients waiting for their test results. To support the improved service, the new hub will be heavily invested providing state-of-the-art clinical equipment and a new computerised results system.

**Doorsets:**

- HTM58 compliant
- All doors PVC acrovyn post-formed to edges supplied complete with PVC acrovyn wrapped split frames and matching integral architraves
- Large number of doorsets acoustic rated to 37/41dB
- Supply of all ironmongery as a complete package

Spencer House, Northampton
